

Properties of the product „Solenoid-valve“

- Operating Pressure: 0-260bar
- Operating temperature: -40°C up to 85°C
- Reliable function in fueling and operating direction
- small construction
- Aluminum, corrosion-resistant
- All seals are suitable for CNG
- Certification: ECE R 110
- The valve is equivalent the heavy metal regulation
- Burst Pressure:> 1000 bar, 20 °
- Orifice diameter: 4, 6mm
- Incl. excess flow limiter
- Incl. manual valve
- Incl. TPRD, glassbulb 110°±5%, minimal release time, orifice 4, 6, 8mm
- Incl. 12V, 7 Watt coil or 24V coil, AMP junior connector, superseal
- Incl. fitting for 6, 8mm tube or 3/8“
- Tightness: 1x10⁻⁵mbar l/s, 20°C, 100% He
